Messrs. Wyort & Ketckam:—Gentlemen—I consider it a duty winch I not only owe to you, but to my fellow-beings, to speak in prince of Dr. Upham's Electuary, a medicine which I think has saved my life, and restored me to full health. For several years, I was afflicted with Piles, together with Dyspepsia, and a general disarrangement of the system. I can ployed different physicians, with no good result, and they at last told me they could do no more for me, and said that I most die. I thus had given up all hopes of ever having my health restored, until I called to mind the benefits that a nephew of mine in Philadelphia (Benjamin Percival) had devived in a severe case of chronic dyscatery, by your medicine, that I parchased a box, which, to my surprise, after taken a lew doses, I received great relief, and think God, by cominging its use, that I am now restored to perfect heath.

I was sorely afflicted with a troublesome cough, hourseness and soreness in the lower part of my throat, with a stricture across the breast, which had troubled me for some time past, in my frequent attempts at public speaking. I had tried several prescriptions of my physicians, but without any sensible effect. I produced of Mr. J. C. Wells, druggist, of this city, a bottle of Dr. Foord's Pectoral Syrap, which I believe has entirely relieved me, and which I consider a most valuable medicine for that class of diseases.

My partner, Ald. Meeker, who had a severe cold at the time I was taking this medicine, was cured by a few doses from the bottle which I had.

Dr. Foond,—Dear Sir.—I send you the following which you are at liberty to use as you see best, to proundigate your excellent medicine. Some time last fall I had a bottle of your Percent Syrup left by your Agent Mr. Palmer. Not long after that time, I had a daughter severely afflicted with the Asthma. She had previously taken, when attacked with the same disease, various kinds of medicine to no effect; and to our surprise, when she began to take your Pectoral Syrup, she found immediate relief, and remained well until the spring following, when, by imprudence in singing, and going from a warm room into the cold air, she had another severe attack, at which time I tried to obtain another bottle, but did not fins it. I hope you will keep a constant supply somewhere in this vicinity, and would cheerfully recommend it to all who may be afflicted with that disease, wishing that all may be benefitted by it as well as myself.

Respectfully, voors.
